EFI® Fiery® EXP250 Color Server for the
Xerox DocuColor® 240/250 Digital Color Printer/Copier

Specifications

EFI® Fiery® EXP250 Color Server

The speed, the tools, and on-the-money color.

Impressive productivity and flexibility.

No matter what kind of printing environment you are in, EFI workflows deliver fast, accurate color thanks to its outstanding color management tools. With its high-speed Pentium® 4 processor, fast RIP speeds are a sure thing.

Production-class features come standard

EFI's Spot-On® lets you edit and define custom spot colors at the RIP. Hot Folders enable automatic batch processing. And Auto Trapping automatically compensates for common misregistration.

Making hard-working documents easy

You can forget outsourcing and expensive designer layouts. With simple-to-use templates for bi-fold brochures, you can print professional-grade pieces every time. You can then customize the output with varying text, photos, and graphics.

Top-shelf image and color management

Professional quality calibration and optional X-Rite® densitometers ensure brilliant, precise color output.

Intuitive EFI workflow keeps everything humming

The very familiar EFI workflow makes queue management and changing job parameters downright easy.

Security features, a must

This Fiery color server's Secure Erase feature protects information by removing job data when a job is deleted. A remote desktop connection lets you monitor the workflow even when you are offsite. A removable disk option is also available.

Upgrades aplenty

The Fiery EXP250 offers a wide range of upgrades, from the Graphic Arts package to an advanced controller interface kit.

EFI® Fiery® EXP250 Color Server Features

System Specifications

- Intel® Pentium® 4, 3.06 GHz processor
- 1 GB memory
- 80 GB hard disk drive
- Internal CR-RW, DVD-ROM drive
- Video data cables
- Fiery® Impose 2.5
- Microsoft® Windows® XP Operating System
- 10/100/1000 BaseT (Ethernet)

Options and Upgrades

- EFI® Color Profiler (ES-1000)
- Fiery® Graphic Arts package
- Fiery® advanced controller interface kit; keyboard, 15-inch flat panel monitor, mouse, server stand
- X-Rite® DTP32 Series II
- Removable hard disk security option

Print Resolution

- 2400 x 2400 dpi

Fonts

- 136 Postscript® fonts
- 80 scalable PCL fonts

Controller Interface

- Fiery® LCD interface
- Fiery® advanced controller interface (optional)

Document Management Utilities

- Fiery® Scan
- Command WorkStation® v4.4 software
- Fiery® WebTools
- Fiery® FreeForm v1 and 2.1
- Impose 2.5
- Velocity v3.2 (compliant)
- Fiery® Downloader (TCP/IP)
- Fiery® Hot Folder for PC/Mac

User Interface

- Fiery® Driver – for Adobe® PostScript® and PCL

Color Management

- ColorWise® 3 (calibrator, ICC/ICM Profile Manager, Color Editor, RGB separations)
- X-Rite® densitometers (software enablement for DTP32 series)
- EFI® Profiler Kit with ES-1000 (optional)

NOTE: the Fiery® EXP250 is an upgrade to the standard DocuColor® 240/250 network color server. The standard DocuColor® 240/250 color server is not required to install the Fiery® EXP250.

Network Environments/Protocols

- TCP/IP, Novell® IPX/SPX (NDS® and Bindery), SMB (Microsoft® peer-to-peer), AppleTalk® PAP
- Frame types: 802.2, 802.3, Ethernet II, Ethernet, SNAP

Printer Drivers

- Windows® 2000, XP 2003
- Macintosh® OS 9.0/Macintosh® OS 10.x

Variable Printing Format Support

- Fiery® FreeForm
- Xerox® VIPP® (purchasable option)
- PPML

Dimensions/Weight

- Server size: 18.375" (46.7 cm) high x 8.125" (20.64 cm) wide x 19.75" (50.17 cm) deep
- Server weight: 34 lbs (15.43 kg)
- Monitor size: 15.75" (36.8 cm) high x 15" (34.3 cm) wide x 6.25" (15.9 cm) deep

Power

- Supply voltage: 100-125/200-240 VAC RMS single phase automatically configured

Regulatory Agency Approvals

- US FCC Class A
- Canada ICES-003 Class A
- EU CE Class A
- C-UL

File Format Support

- Adobe® PostScript® Level 3™
- PCL 6/PCL 5 (emulation)
- PDF Native (v1.5)
